Checklist for Wallpapering

**Tips to planning Wallpapering before renovation work**

Wallpapers is one of the easiest and most inexpensive option used to cover and decorate the interior walls of homes, offices, and other buildings these days. With a variety of colors, textures and patterns, wallpapers adds depth, dimension and style to your rooms. Wallpaper can alter your room appearance. It can make your small spaces appear larger, vertical spaces appear wider and better. Sometimes wallpaper is used to hide defects in room design too.

But before you plan to have wallpaper,

Here are few tips to wallpapering that are often spoken.

- Before you plan wallpaper of say painting or texturing too, make sure there's no leakage problem. If any get it repaired. Leakage will degrade the life of any wall surface application.
- Wallpaper is usually installed in main wall of a room like you TV wall of living wall, main wall of dining area or bed back wall of bedroom and smarmily for kid's room.
- Know your rooms. Wallpapers are available in variety of designs. Having them used cleverly can make your small rooms appear big, higher ceilings appear lower and much more.

Tips on how wallpaper designs can alter your room appearance

- Vertical stripes make walls appear longer. Thus it makes your room appear with good height.
- Horizontal stripes make room appear wider. Thus horizontal design wallpapers adds to room depth.
- Dark color wallpapers make wall appear nearer to eyes, making room appear smaller. While light colored wallpaper add to room space. They make room appear fresh, light and expansive.
- Antique design wallpaper enrich your home interior, while pop-art design make same home appear modern.
